

plantosverde.
commercial spray programme

Mixture:

1 x rounded teaspoon to 1 litre of water. Mix in a spray bottle and apply a fine mist to the leaves. Spray early morning or evening.

*When planting from seed – spray when first leaves appear. When replanting, we suggest dipping the roots in the plantosverde mixture, before planting.

Flowers, roses, ornamental flowers

1. Application when new leaves appear and plant is about 20 cm high
2. Application 14-21 days later
3. Application 14-21 days later, further treatment if possible, without damage to the plant 21-28 days
