

## SPRAY PROGRAMME: OLIVES

Application for Olive Tree

**SOLUTION = 1TSP / 1L WATER**

1st Application: when new leaves are out or first leaves on newly planted tree

2nd Application: 14-21 days later

3rd Application: 14-21 days later or after flowering

4th Application: 30 days later

5: every 30 days till 3-4 weeks before harvesting

6: Post Harvest Spray

NOTE:

(Always stop spraying 4 weeks before harvesting is foreseen in order not to have dust particles on fruits. There is no danger, in case there are some particles on, but optical impression is better without)
